

FULL RANGE SPEAKERS

CS-FR4020 CS-FR5020 CS-FR6020 CS-FR6930

SPEAKER PARAMETERS

	CS-FR4020	CS-FR5020	CS-FR6020	CS-FR6930
Peak Power (Watts)	160	190	210	310
Rated Power (Watts)	30	35	40	55
Frequency Response	44Hz - 24kHz	41Hz -24kHz	35Hz -24kHz	28Hz -25kHz
Impedance	4 Ohms	4 Ohms	4 Ohms	4 Ohms
Sensitivity	83dB	84dB	85dB	87dB
Cone Material	Polypropylene	Polypropylene	Polypropylene	Polypropylene
Tweeter	PEI	PEI	PEI	PEI
Mounting Depth	45mm (1-3/4")	43mm (1-11/16")	41.5mm (1-11/16")	71.5mm (2-14/16")
Mounting Diameter	103mm (4-1/16")	118mm (4-21/32")	126mm (5")	222 x 156mm (8-24/32 x 6-3/16")

INSTALLATION GUIDELINES

Ensure the audio system is turned off before making any connections to the amplifier, speakers or source unit. Failure to do so could result in permanent damage to the audio system.

When wiring the speakers ensure that the wire is protected from sharp objects and always use rubber grommets when wiring through metal panels. Ensure all terminals and connections are protected from the vehicle chassis and from each other as failure to do so could result in permanent damage to the audio system.

When connecting the source unit and speakers ensure you connect the positive and negative output wire from the source unit to the corresponding speaker terminals. This will ensure the audio system will be in phase.

- 1) Ensure there is adequate clearance and depth for the speaker to be mounted.
- 2) Use the supplied template to mark out & cut the correct diameter hole.
- 3) Drill four holes for the mounting screws.
- 4) Separate the grille from the frame.
- 5) Insert the speaker and grille frame and affix with the screws provided.
- 6) Complete installation by replacing the grille into the grille frame.

WARNING: Do not drill mounting holes with speaker in place as this could allow drill shavings to damage the voice coil and void your warranty.
